New Traffic Signal at Grove Avenue and Maple Avenue Installed

~Signal temporarily flashing red and yellow~

RICHMOND, Va. – A new traffic signal has been installed to improve safety for pedestrians, bicyclists and motorists along a section of the Grove Avenue corridor.

The signal is at the intersection of Grove Avenue and Maple Avenue. It will be energized on Monday, February 3 and temporarily placed in flash mode. Those approaching from Maple Avenue will see a red indicator, while those approaching the intersection from Grove Avenue will see an amber light.

The temporary flashing gives motorists an opportunity to adjust to the new signal before it becomes a functioning signalized intersection on Monday, February 10.

The signal was implemented following a traffic study that indicated enough federally required conditions were met to warrant a traffic control device.

The City of Richmond Department of Public Works (DPW) is one of only 146 accredited public works agencies in the United States. DPW's portfolio comprises a wide array of services to include leaf collection; street, sidewalk and alley maintenance; trash collection; recycling; urban forestry; signs; signals and pavement markings; grass cutting; graffiti removal; and parking. In addition, DPW issues permits for working in the city's right-of-way, manages Richmond's Bike Share program and maintains the fleet of city vehicles. DPW's operating budget comes from the general fund of the City of Richmond. For more information about DPW services, [click here](#) or call 3-1-1.
