Welcome!

RVAgreen 2050 Buildings & Energy Working Group Wednesday, February 9, 2022

Introducing RVAgreen 2050: Climate Equity Action Plan 2030

Equitable climate action for a healthy and resilient Richmond

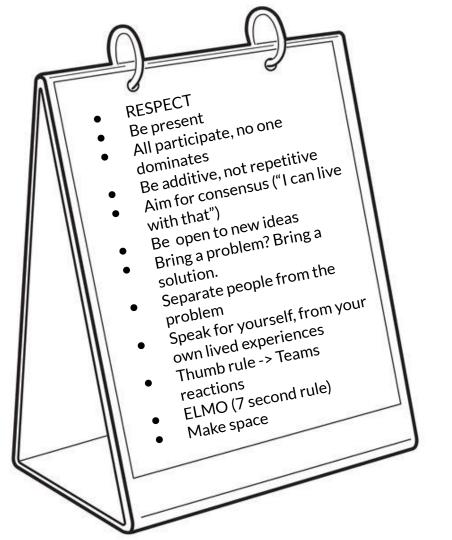

Agenda

- I. Intro: Settling in & ground rules
- II. Partner Updates: What are your recent "wins" for equitable climate action and resilience?
- III. Review: Where we've been
- IV. Presentation: Introducing the draft Climate Action Plan 2030
- V. Discussion: Engagement and advocacy
- VI. Conclusion: Wrap-up and next steps

Today's Objectives

- Review and discuss any questions on the RVAgreen 2050 planning process
- Provide an orientation to the Climate Equity Action Plan 2030, particularly this group's Pathway and new content
- Look forward to community-wide engagement in April-May and approval/adoption in summer-early fall: what should we be doing and what can you help us with?

Ground Rules / Group Expectations

Partner Updates

What are your recent "wins" for equitable climate action and resilience?

VCU climate emergency declaration! + community petition to get signatures of support

VCU Sustainability Plan kickoff around the corner

145 home energy audits in 2021 in the region by Viridiant - 176 megawatt hours per year savings! Sign up for an energy audit at https://www.viridiant.org/en ergy-services/home-energyaudit/

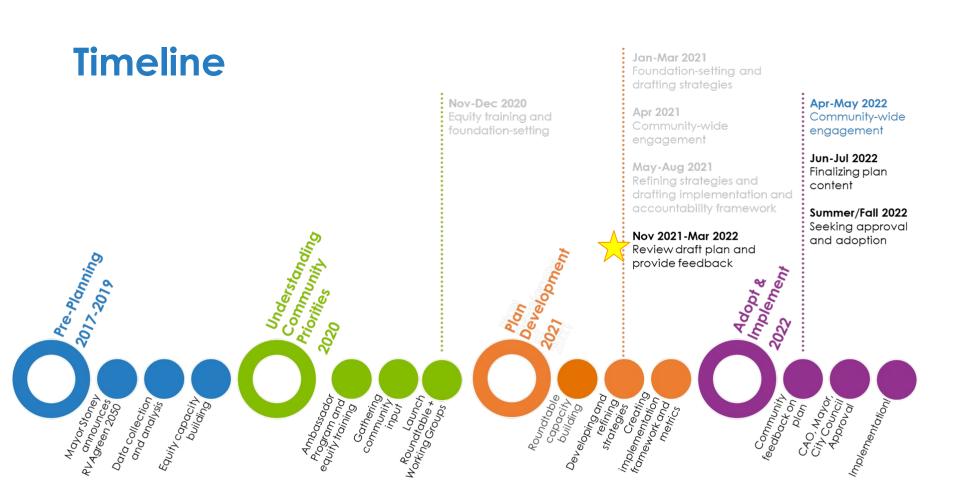

Timeline review

Buildings and Energy

Accelerate the equitable transition to healthy, resilient, climate neutral buildings and energy sources.

Objective BE-1

Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

BE-1.1: Municipal Energy Efficiency Program: Develop a program to achieve the energy efficiency goals of RVAgreen 2050 and Richmond 300.

BE-1.2: Municipal Clean Energy and Net Zero Construction: Incorporate measures toward the goal of converting all city buildings to clean energy by 2050.

BE-1.3: Municipal Climate Impact Mapping: Establish a protocol for tracking greenhouse gas emissions and planning for climate impacts.

BE-1.4: Municipal Resilient Infrastructure Assessment: Conduct a climate vulnerability and risk assessment of all city property (including buildings and parcels). Identify and prioritize properties for specific resilience projects.

Objective BE-2

Maximize energy efficiency, performance and resilience in all existing buildings.

BE-2.1: Residential Energy Burden: Implement measures to reduce the energy burden of Richmond's most vulnerable communities and improve residential resilience to climate change

BE-2.2: Commercial Energy Efficiency Programs: Develop policies, incentives, and financing mechanisms to improve commercial energy efficiency; offer assistance and technical expertise to those that are financially challenged and facilitate workforce development.

BE-2.3: Construction & Energy Code Enforcement: Prioritize the most recent energy requirements in all new construction and site plan approvals.

Buildings and Energy

Accelerate the equitable transition to healthy, resilient, climate neutral buildings and energy sources.

Objective BE-3

Ensure all Richmonders have equitable access to affordable and renewable clean energy.

BE-3.1: Solar Energy Education & Outreach: Provide equitable education and outreach to make homes and small businesses healthy, safe, and affordable through solar installations, focusing on frontline communities reducing disproportionately high energy burden in these neighborhoods.

BE-3.2: Solar Installation Incentives and Access: Encourage solar installations through the removal of zoning restrictions, incentivizing opportunities, and increasing funding for microgrids.

BE-3.3: Clean Energy Workforce Development: Establish training programs, apprenticeships, and a conservation corps/job placement program in low-income and diverse neighborhoods to build capacity for jobs related to solar installation and maintenance, weatherization upgrades, and energy efficiency auditing (e.g., prison to solar training).

Objective BE-4

Achieve climate neutrality and maximize resilience in all new buildings.

BE-4.1: Net-Zero Energy Design: Develop and require builders to incorporate measures to advance net-zero energy design and green building in all new buildings.

BE-4.2: Resilient Design Guidelines: Develop Resilient Design Guidelines and require builders to incorporate design measures to reflect a changing climate, increased precipitation and flooding in concert with a public education campaign to convey the benefits of adaptive and resilient buildings.

Strategy Name

Buildings and Energy •-

Accelerate the equitable transition to healthy, resilient, climate neutral buildings and energy sources.

OBJECTIVES

BE-1: Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

BE-2: Maximize energy efficiency, performance and resilience in all existing buildings.

BE-3: Ensure all Richmonders have equitable access to affordable and renewable clean energy.

BE-4: Achieve climate neutrality and maximize resilience in all new buildings.

OBJECTIVES

BE-1: Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

Buildings and Energy •-

Accelerate the equitable transition to healthy, resilient, climate neutral buildings and energy sources.

Objective BE-1

Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

OUTCOMES

How does this Objective contribute to a more equitable, healthy, and resilient Richmond?

STRATEGIES

BE-1.1: Municipal Energy Efficiency Program: Develop a program to achieve the energy efficiency goals of RVAgreen 2050 and Richmond 300.

BE-1.2: Municipal Clean Energy and Net Zero Construction: Incorporate measures toward the goal of converting all city buildings to clean energy by 2050.

BE-1.3: Municipal Climate Impact Mapping: Establish a protocol for tracking greenhouse gas emissions and planning for climate impacts.

BE-1.4: Municipal Resilient Infrastructure Assessment: Conduct a climate vulnerability and risk assessment of all city property (including buildings and parcels). Identify and prioritize properties for specific resilience projects.

OBJECTIVES

buildings.

BE-1: Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

BE-2: Maximize energy efficiency, performance and

resilience in all existing

BE-3: Ensure all Richmonders

have equitable access to affordable and renewable clean

Achieve climate

rality and maximize

ence in all new buildings.

Accelerate the equitable transition to healthy, resilient, climate neutral buildings and energy sources.

Achieve climate neutrality and increase resilience in government buildings, infrastructure, and operations.

OUTCOMES

How does this Objective contribute to a more equitable, healthy, and resilient Richmond?

V	Advanced green economy	Increased flood resilience
\checkmark	Cleaner and more efficient buildings	Increased heat resilience
\checkmark	Cleaner and more efficient transportation	Increased support for climate action and resilience
\checkmark	Climate-ready community	Less landfill waste
\checkmark	Engaged and involved community	Lower greenhouse gas emission
1	Improved air quality	More green space and trees

STRATEGIES

Strategy BE-1.1

Municipal Energy Efficiency Program:

Develop a program to achieve the energy efficiency goals of RVAgreen 2050 and Richmond 300.

The City of Richmond has an obligation to lead by example and act expeditiously to reduce its energy usage in buildings and operations. Efficiency has the benefit of saving taxpayer dollars budgeted for utility costs and often reducing maintenance costs providing an even bigger benefit.

Illustration created by Thomas Jones.

ACTIONS	STATUS	CITY STEWARD	соят	TIME	GHG REDUCTIONS	RESILIENCE	EQUITY
i. Convert all city-owned streetlights to LED, integrate solar options where feasible, and streamline efficiency measures; Prioritize improvements in formerly redlined neighborhoods and proactively communicate climate impact and resilience benefits with the communities.	0	Public Utilities- Streetlighting	\$\$	2022 - 2025	111	*1 🕈

RVAgreen 2050 Shared Accountability Framework

Purpose

A critical concern for RVAgreen 2050 stakeholders throughout the planning process was ensuring the Action Plan does not end up sitting on a shelf. Equitable implementation of the Plan is just as important as the Plan itself.

Commitments

- » Regular Evaluation: Taking concrete steps to plan for and measure progress to stay on track toward goals.
- » Transparency: Publicly communicating goals, plans, and outcomes. Identifying needs and potential impact up front.
- » Culture of Improvement: Receive feedback. Revise plans and measures over time to stay on track toward goals.

- » Trusting Relationships:
 - Relationships entered into mutually and oriented around a commitment that parties make each other.
- Institutionalizing
 Sustainability in City

and decision-making.

Government: Creating an organizational backbone to combat climate change through organizational structure, culture, staffing,

Helps answer the questions:

"Are **we*** on track toward equitable implementation of RVAgreen 2050?" "**Who** is responsible for **what** as part of that implementation?"

*We = the entire Richmond community working towards the goals of RVAgreen 2050

Shared

Responsibility

Regular Evaluation -

- Outcomes and indicators
- Annual progress report
- Biannual greenhouse gas emissions inventories
 - Climate Equity Index
 Project Tracker

Institutionalizing Sustainability in -City Government

- Employee orientation, training, and performance
 - Climate ambassadors
 - Internal operations and policies
 - Climate considerations in budgeting and finance

Figure 8.1. Shared Accountability Graphic

Transparency

- RVAgreen 2050 Plan, goals
 and outcomes
- Community priorities
- Climate Equity Index
- Interactive website, newsletters
 and social media
- Mayor's State of the City

Culture Of Improvement

- Equity screening tool and
 Equitable Implementation Guide
- · Annual community-wide survey
- Annual equity evaluation and lessons learned
- · Plan update every five years

Trusting Relationships

- Implementation teams
- Racial Equity & Environmental Justice Roundtable
- Annual convening of partners

WHO?	WHAT?
	» Steward development, adoption and implementation of the RVAgreen 2030 Action Plan
	» Champion actions to institutionalize sustainability in city government, including:
	» Building awareness among all city employees through new employee orientation and other training opportunities, incorporating climate competencies into job descriptions and performance evaluations, and other initiatives
	» Mobilizing employees through a climate ambassadors program to promote a culture of sustainability
Office of	 Evaluating and updating city policies and programs to reduce greenhouse gas emissions and address the impacts of climate change (such as procurement, hazard mitigation, social services, and others)
Sustainability	» Incorporating climate considerations into the city's annual budgeting processes
Primary convener	» Convene and support Implementation Teams, including quarterly convenings by RVAgreen 2050 Pathway
providing support to city and	» Convene and support the Racial Equity and Environmental Justice Roundtable
community leaders	» Track data for annual progress report and additional updates as needed, including:
	» Indicators
	» Biannual greenhouse gas inventories
	» Climate Equity Index project tracker
	» Website updates
	» Organize annual convening of implementation partners
	» Conduct annual community-wide sustainability survey
	» Provide annual reports to Green City Commission, Mayor and Chief Administrative Officer, City Council, and Planning Commission
	» Steward development and adoption of plan updates (2035, 2040, 2045)

WHO?	WHAT?
Implementation Teams Groups of stakeholders from city departments, partner organizations, and community	 » Implement RVAgreen 2050 strategies and actions » Use the Equity Screening Tool, equitable implementation guide, Climate Equity Index, and other equity-centered tools to guide implementation » Provide updates to the Office of Sustainability at regular intervals
Racial Equity and Environmental Justice Roundtable 10-member group of residents paid for their time and lived experience expertise to center equity in implementation	 Develop and update as needed an equitable implementation guide (as a next iteration of the RVAgreen 2050 Equity Screening Tool) Two members per RVAgreen 2050 Pathway assist Implementation Teams to ensure equitable implementation of strategies and actions Work with Office of Sustainability to conduct an annual evaluation of plan objectives and strategies; review and approve changes Create an annual report on implementation using the Shared Accountability Framework Members commit to: Monthly Roundtable meetings Quarterly Implementation Team meetings by Pathway Staggered 2-year terms Living or working in communities on the frontlines of climate change (census tracts with above-average social vulnerability via the Climate Equity Index) Assist with recruiting new members at the end of their terms
	» Members receive a stipend payment of \$500 every 6 months for their service

WHO?	WHAT?
Mayor and Chief Administrative Officer	 » Ensure overall accountability for RVAgreen 2050 » Review and approve 2030 Action Plan to be adopted into the Richmond 300 Master Plan » Review annual reporting information » Provide annual updates, highlights, and priorities in State of the City address » Ensure there is dedicated and consistent city funding for implementation » Review and approve plan updates (2035, 2040, 2045)
Clty Council	 » Ensure overall accountability for RVAgreen 2050 » Review and adopt 2030 Action Plan into the Richmond 300 Master Plan » Review annual reporting information » Ensure there is dedicated and consistent city funding for implementation » Review and adopt plan updates (2035, 2040, 2045)
Planning Commission	 » Review and approve 2030 Action Plan to be adopted into the Richmond 300 Master Plan » Review annual reporting information » Review and approve plan updates (2035, 2040, 2045)
Green City Commission	 » Review annual reporting information » Provide recommendations and input on updates, particularly in technical areas » Adopt priorities annually to support RVAgreen 2050 strategy implementation
Richmond Community	» Participate in planning, implementation, and update processes (read more on our community's shared responsibility in the next section)

Questions?

DRAFT | February 2022

Climate Equity Action Plan 2030

Equitable climate action for a healthy and resilient Richmond

What's next for the document?

• Working Groups and Roundtable review: now through <u>February 18</u>

Does this reflect your work?

Do you feel ownership, particularly of the content in the Pathway?

If we don't hear from you, we'll assume YES!

• Late February - early March: City staff and leadership review

 Mid-March - early-April: Office of Sustainability prepares document for community-wide engagement in April...more on that......>

Spring 2022 community-wide engagement (and beyond)

- Mid-April through mid-May
- Goals for the Office of Sustainability: transparency and accountability
 - At this point we are not seeking new strategies; instead we are looking to:
 - Bring what we heard back to the community
 - Improve climate literacy and raise awareness and reach new audiences
 - Build support for adoption
 - Use any specific new ideas and input during implementation

Discussion

- General reflections, thoughts, and ideas
- How have you been engaging the community recently?
- What can we align with during the April-May timeframe?
- Where should we put our energy, with an eye towards advocacy for adoption in summer/early fall?
- Can you anticipate any potential hurdles or blind spots towards adoption?'
- What questions or information would you like us to ask/promote to engage?

• We need your help! (quick survey)

Wrap-up and next steps

• NEXT STEPS:

- Early April: one all-working groups meeting to share community engagement information and ask for your help
- Mid-April through mid-May community engagement period
- June: **final** meeting to discuss community input, advocacy for plan adoption, and look forward to implementation

• NOW:

- VOLUNTEER SURVEY! link
- Share updates, upcoming events, and resources

THANK YOU!
