Chief of Police:

If any provision of this General Order conflicts with any collective bargaining article, the collective bargaining agreement shall govern.

I. PURPOSE

This directive aims to establish the appropriate guidelines and procedures governing motor vehicular pursuits.

II. SUMMARY OF CHANGE

The annual review was conducted on this policy. Where needed verbiage was changed from “may” to “shall”. An IBR for Vehicle Pursuits / Eluding Police have been added. All changes will be bold and italicized throughout the document.

III. POLICY

The Richmond Police Department has specific guidelines for the pursuit of motor vehicles. The risks associated with pursuits mandate that officers exercise sound judgment and discretion throughout the pursuit. This General Order is intended to guide the decision-making process and applies to all sworn personnel operating Department vehicles equipped with lights and sirens; vehicles not equipped with these safety measures ARE NOT PERMITTED to engage in vehicular pursuits.

This Pursuit Policy specifies when an officer and/or a supervisor should initiate or terminate a vehicle pursuit along with the responsibilities of the initiating officer, monitoring supervisor, Communications Officer, and any other involved police vehicles. These guidelines are intended to guide officers in safely and reasonably performing their duties. There are exceptions to specific traffic laws granted to police officers engaged in emergency vehicle operations to assist them in saving lives.

It is also a departmental policy that officers:

- A. Will make every effort to ensure the safety of the public and Department members at all times and authorize emergency use of police vehicles when the necessity of immediate response or apprehension of offenders outweighs the level of inherent danger.
- B. **Will** recognize the objective of a motor vehicle pursuit is to maintain police contact with a fleeing driver, without unnecessary endangerment to life and property, until the individual can be apprehended, if possible. Officers and the pursuit supervisor will continually evaluate the nature of the pursuit with respect to its danger and, whenever necessary, make the decision to terminate the pursuit.
- C. Only become actively involved in a regional pursuit that enters this jurisdiction if the factors that lead the outside agency to initiate the pursuit meet the criteria set forth by this General Order. For pursuits that enter this jurisdiction that does not meet these criteria, Richmond Officers will participate in a support capacity.
- D. Will have documented initial training on the Vehicle Pursuit Procedures policy.
[CALEA 41.2.2m]

IV. ACCOUNTABILITY STATEMENT

All employees are expected to fully comply with the guidelines and timelines set forth in this General Order. Responsibility rests with the Division Commander to ensure that any violations of policy are investigated, and appropriate training, counseling and/or disciplinary action is initiated.

This directive is for internal use only and does not enlarge an employee’s civil liability in any way. It should not be construed as creating a higher safety standard or case in an evidentiary sense concerning third-party claims. Violation of this directive, if proven, can only form the basis of a complaint by this Department and then only in a non-judicial administrative setting.

V. DEFINITIONS

- A. PURSUIT – An active attempt by a law enforcement officer in a police vehicle equipped with a siren and emergency lights to apprehend the occupants of another moving vehicle who are aware of the attempt but resisting apprehension by increasing speed or clearly taking evasive measures. Continuing the pursuit requires justification based on the potential threat to public safety and the officer’s personal safety, and/or the seriousness of the criminal activity.
- B. PURSUIT SUPERVISOR – Upon initiating a pursuit, a supervisor will be acknowledged by radio and designated as the pursuit supervisor. However, if that supervisor is the operator of a primary, support, or backup unit that is involved in a pursuit, they shall not act as the pursuit supervisor. If available, the next immediate ranking supervisor in that Precinct, shall serve as the pursuit supervisor for the duration of the pursuit. The Department of Emergency Communications (DEC) shall terminate the pursuit if these efforts to contact a supervisor fail.
