

Service Line Identification (SLI) Plumber List

The companies listed below have completed the training which allows them to submit paperwork for reimbursement under the Service Line Program, resulting in no cost to the property owner as long as SLI Program grant funds remain. The City of Richmond has verified that these companies are licensed plumbers, but otherwise cannot guarantee or provide recommendations on the quality, availability and professionalism of the companies. Using a plumber that is not listed here will result in a charge to the owner for the SLI identification.
