DEPARTMENT OF PUBLIC UTILITIES

Service Line Identification (SLI) Grant Program

Updated 10/28/26

Property owners or their authorized representative can have their water service line material identified **at no cost through the SLI Grant Program if:**

- The property is residential and contains four (4) or fewer units
- A participating plumber from the list below is used
- The property owner/authorized representative signs a terms agreement with the plumber, allowing the plumber to upload the material identification results to the City's public inventory.

Please contact one of the plumbers below to set up an appointment. The City of Richmond has verified that participating companies below are licensed plumbers but otherwise cannot guarantee or provide recommendations on the quality, availability, and professionalism of the companies. Representatives from the companies have received training on how to properly submit paperwork to receive reimbursement through the grant program
