Public Forum: Downriver Improvements to Lehigh Terraces Area

Mayor Dwight C. Jones, and the Richmond Department of Planning & Development Review, will host a meeting on the next round of improvements for the Richmond Riverfront. Hargreaves Associates will provide a concise overview of the original Riverfront Plan recommendations for the area surrounding the former Lehigh cement plant, and observations on proposed improvements to the greater East Riverfront Area. The objective of the meeting is to collectively identify opportunities to evolve that vision. The presentation will begin at 7:00 PM with the balance of the meeting open to questions and comments from the audience.
